

School Health Screening Guidelines

During the school year mandated screenings will be completed:

Vision screening for distance and near vision acuity is required for all new entrants and students in grades K, 1, 3, 5, 7 and 11.

Hearing screening utilizing pure tone testing is required for all new entrants and students in grades K, 1, 3, 5, 7 and 11.

Scoliosis screening is required in grades 5 and 7 for girls and grade 9 for boys.

** If any deficit is found during a health screening the parent/guardian will be notified.

A vision, hearing or scoliosis screening may also be completed at anytime if it is requested by the parent/guardian. Please notify the Health Office if this need should arise.
